GEORGIA'S SYSTEMS OF CONTINUOUS IMPROVEMENT

The Georgia Department of Education's strategic plan emphasizes transforming the agency into one that provides meaningful support to schools and districts. The agency has developed a common, continuous improvement framework to ensure that these efforts are aligned across all agency divisions, departments, and programs. Georgia's Systems of Continuous Improvement focuses on the systems and structures (the "what") that must be in place for sustained improvement in student outcomes. It also utilizes a problem-solving model (the "how") to provide a clear process for identifying improvement needs, planning for improvement, and implementing, monitoring, and evaluating the improvement efforts.

Systems to Improve (What to Improve)

Coherent Instructional System: The major system of the complex district organization that articulates and guides the "what" and "how" of instruction. This comprehensive system includes the processes related to:

- Planning for quality instruction The structure of the instructional system in which the district defines what the students should "know" and "do", and determine how their students will show they "know" the content and can "do" a skill or performance task
- Delivering quality instruction The structure of the instructional system that guides teachers in how they introduce content, practice its use along with the students, and then allow students to use the content on their own while providing students regular standards-based feedback to gain mastery of the content
- *Monitoring student progress* The structure of the instructional system that methodically discovers if the students are getting the content, and what to do about it when they are getting it or are not getting it
- *Refining the instructional system* The structure of the instructional system that examines how to improve the planning for quality instruction, delivering quality instruction, and monitoring student progress

Effective Leadership: A major system of the complex district organization that sets the direction for the district, ensures that the district staff and the school leaders are capable of meeting that direction, and makes sure the organization functions according to its mission. This system includes the processes related to:

- *Creating and maintaining a climate and culture conducive to learning* the structure of the leadership system that ensures that the school allows both adults and children to put learning at the center of their daily activities
- *Cultivating and distributing leadership* the structure of the leadership system that develops others to accomplish the group's purpose and encourages the development of leadership across the organization
- *Ensuring high quality instruction in all classrooms* the structure of the leadership system that reduces the variability in the quality of instruction across all schools and all classrooms
- *Managing the district and its resources* the structure of the leadership system that ensures leaders effectively use all the resources at hand so that the district functions according to its mission
- *Driving improvement efforts* the structure of the leadership systems that methodically, intentionally, and effectively improves the district's major systems, structures, and processes

Professional Capacity: A major system of the complex district organization that develops a quality staff to reduce the variance of quality in instruction throughout the district. This system includes the processes related to:

- *Attracting staff* the structure of the professional capacity system that is intentional in locating the teachers and leaders that are the best fit for the district and its schools to achieve its mission
- *Developing staff* the structure of the professional capacity system that ensures the increasing quality of the district and school staff's knowledge and skills
- *Retaining staff* the structure of the professional capacity system that ensures the quality staff is working in the context/ position that is most beneficial to student achievement
- *Ensuring staff collaboration* the structure of the professional capacity system that reinforces the effective practice of constant collaboration to improve instructional quality in all schools and in all classrooms

Family and Community Engagement: A major system of the complex district organization that develops quality links between district professionals and the parents and community the district and its schools are intended to serve. This system includes the processes related to:

- Welcoming all families and the community The structure of the family and community engagement system that
 ensures families and the community are active participants in the life of the schools within the district, and feel
 welcomed, valued, and connected to each other, to school staff, and where applicable district staff, and to what students
 are learning and doing in the schools within the district
- Communicating effectively with all families and the community The structure of the family and community engagement system that ensures families/the community and district and school staff engage in regular, two-way, meaningful communication about student learning
- Supporting student success the structure of the family and community engagement system that ensures families, communities, school staff, and as appropriate district staff, continuously collaborate to support students' learning and healthy development both at home and at school, and have regular opportunities to strengthen their knowledge and skills to do so effectively
- Empowering families the structure of the family and community engagement system that ensures families are empowered to be advocates for their own and other children, to ensure that students are treated fairly and have access to learning opportunities that will support their success
- Sharing leadership with families and the community the structure of the family and community engagement system that ensures families/the community and district and school staff are equal partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs
- *Collaborating with the community* the structure of the family and community engagement system that ensures families and district and school staff collaborate with community members to connect students, families, and staff to expanded learning opportunities, community services, and civic participation

Supportive Learning Environment: A major system of the complex district organization that ensures students' school participation and willingness to expend major effort on classroom learning. This system includes the processes related to:

- *Maintaining order and safety* the structure of the supportive learning environment system that ensures that the basic needs of orderliness and safety are met
- *Developing and monitoring a system of supports* the structure of the supportive learning environment system that provides comprehensive services to students to meet their unique, whole-child needs
- *Ensuring a student learning community* the structure of the supportive learning environment system that ensures compliance with positive and healthy behavioral and academic norms

Process to Improve (How to Improve)

Step 1: Identify Needs: Consult many sources to determine what in the district needs improvement.

- Plan and prepare for the process
- Collect and analyze data
- Identify needs and conduct a root cause analysis

Step 2: Select Interventions: Research many sources to determine the solutions that have a good chance of meeting the identified district needs.

- Consider all the evidence for needed improvements
- Research possible interventions
- Determine if staff has the capacity to implement possible interventions

Step 3: Plan Implementation: Develop a team and plan to implement the solutions that are most promising and can be carried out at the school.

- Identify roles and responsibilities of those implementing the intervention
- Develop a team that will deeply understand the intervention and of best ways to implement it
- Develop the implementation timeline
- Identify resources and supports needed for the implementation of the intervention
- Develop a set of information to be reviewed to track the implementation

Step 4: Implement Plan: Carry out the plan to implement the promising solutions, making real-time adjustments where/ when needed.

- Collect information to monitor the quality of supports being provided for the intervention
- Consider what additional information is needed to determine if intervention is working
- Assess the degree to which the implementation plan is being followed
- Identify ways to break down any barriers
- Build capacity of others to facilitate the improvement process now and in the future

Step 5: Examine Progress: Determine whether the implementation of the promising solutions is meeting the originally identified needs of the school.

- Determine if the staff can formally study the effects of the intervention to share with others in the field
- Monitor implementation and progress against defined goals
- Define reasonable expectations for success
- Identify and track progress and performance
- Develop a plan for how knowledge about the intervention will be shared with others
- Use the evidence to determine whether the intervention should continue as is, be modified, or be discontinued

1. PLANNING and PREPARATION

1.1 IDENTIFICATION of TEAM

The comprehensive needs assessment team consists of people who are responsible for working collaboratively throughout the needs assessment process. Ideal team members possess knowledge of programs, the capacity to plan and implement the needs assessment, and the ability to ensure stakeholder involvement. A required team member's name may be duplicated when multiple roles are performed by the same person. Documentation of team member involvement must be maintained by the LEA. Watch the <u>Planning and Preparation webinar</u> for additional information and guidance.

1.1.1 Required Team Members

Program	Position/Role	Name
Multiple programs	Superintendent / assistant superintendent	
Multiple programs	Federal programs director	
Multiple Programs	Curriculum director	
Multiple programs	School leader (#1)	
Multiple programs	School leader (#2)	
Multiple programs	Teacher representative (#1)	
Multiple programs	Teacher representative (#2)	
McKinney-Vento Homeless	Homeless liaison	
Migrant	Migrant student service provider or local migrant recruiter/contact	
Neglected and Delinquent	N&D coordinator	
Rural	REAP coordinator	
Special Education	Special education director	
Title I, Part A	Title I director	
Title I, Part A	Parent engagement coordinator	
Title I, Part A - Foster Care	Foster care point of contact	
Title II, Part A	Title II, Part A coordinator	
Title III	ESOL coordinator / Title III director	

1.1.2 Recommended and Additional Team Members

Program	Position/Role	
Multiple Programs	Assistant superintendent	
Multiple Programs	Testing director	
Multiple Programs	Finance director	
Multiple Programs	Other federal programs coordinators	
Multiple Programs	CTAE coordinator	
Multiple Programs	Student support personnel	
Multiple Programs	Principal representatives	
Multiple Programs	High school counselor / academic counselor	
Multiple Programs	Early childhood or Head Start coordinator	
Multiple Programs	Teacher representatives

2. DATA COLLECTION and ANALYSIS

2.1 COHERENT INSTRUCTIONAL SYSTEM

Analyze the LEA's data (including sections 2.6 and 2.7) and answer the guiding questions to determine existing trends and patterns that support the identification of instructional needs. Complete a data-informed self-rating for each Georgia District Performance Standard (GDPS). See the <u>Coherent Instructional System webinar</u> for additional information and guidance.

2.1.1 COHERENT INSTRUCTIONAL SYSTEM DATA

GDPS - Learning and Teaching (Standard 1): Engages and supports all schools in systematic processes for curriculum design to align instruction and assessments with the required standards			
Exemplary	The district continuously engages and supports all schools in systematic processes for curriculum design to align instruction and assessment with the required standards. District staff work to build the capacity of school staff to lead curriculum design efforts.		
Operational	The district engages and supports all schools in systematic processes for curriculum design to align instruction and assessments with the required standards.		
Emerging	The district processes for engaging and supporting schools in curriculum design is incomplete in some content areas or limited in other ways.		
Not Evident	District schools are left to work in isolation on curriculum design without district processes or support.		
Data Sources			
Comments (optional)			

GDPS - Learning and Teaching (Standard 2): Develops and communicates common expectations for implementing curriculum, instruction, and assessment practices across all schools		
Exemplary	A clear understanding of common expectations fosters a culture of results-based practices in curriculum, instruction, and assessment throughout the district with appropriate flexibility for schools to address specific needs as they arise.	
Operational	The district develops and communicates common expectations for implementing curriculum, instruction, and assessment practices across all schools.	
Emerging	The district expectations for implementing curriculum, instruction, or assessment practices are not fully developed or are not clearly communicated to all schools.	
Not Evident	The district has not developed or communicated expectations for implementing curriculum, instruction, or assessment practices.	
Data Sources		
Comments (optional)		

GDPS - Learning and Teaching (Standard 3): Guides, supports, and evaluates the implementation of curriculum, instruction, and assessments		
Exemplary	The district provides a collaborative and systematic approach for guiding, supporting and evaluating the implementation of curriculum, instruction, and assessments. District staff build the capacity of school level staff to evaluate the implementation of curriculum, instruction, and assessments.	
Operational	The district effectively guides, supports, and evaluates the implementation of curriculum, instruction, and assessments.	
Emerging	The district provides limited guidance and support for evaluating the implementation of curriculum, instruction, and assessments.	
Not Evident	The district does not take an effective role in guiding, supporting, or evaluating the implementation of curriculum, instruction, or assessments.	
Data Sources		
Comments (optional)		

GDPS - Learning and Teaching (Standard 6): Guides and supports schools in the selection and implementation of effective strategies, programs, and interventions to improve student learning		
Exemplary	The district systematically provides guidance and ongoing support to schools in the selection and implementation of effective strategies, programs, and interventions to improve student learning.	
Operational	The district guides and supports schools in the selection and implementation of effective strategies, programs, and interventions to improve student learning.	
Emerging	The district provides some limited guidance and support in the selection or implementation of effective strategies, programs, and interventions to improve student learning.	
Not Evident	The district provides little or no support or guidance in the selection or implementation of effective strategies, programs, and interventions. The district may require or allow some inappropriate strategies, programs, or interventions.

2.1.3 COHERENT INSTRUCTIONAL SYSTEM TRENDS AND PATTERNS

2.2 EFFECTIVE LEADERSHIP

Analyze the LEA's data (including sections 2.6 and 2.7) and answer the guiding questions to determine existing trends and patterns that support the identification of leadership needs. Complete a data-informed self-rating for each Georgia District Performance Standard (GDPS). See the <u>Effective Leadership webinar</u> for additional information and guidance.

2.2.1 EFFECTIVE LEADERSHIP DATA

GDPS - Vision and Mission (Standard 1): Creates and communicates a collaboratively-developed district vision, mission, and core beliefs that focus on preparing all students for college and career readiness			
Exemplary	The collaboratively- developed vision, mission, and core beliefs that emphasize preparing all students for college and career readiness are continuously and clearly communicated to all stakeholders and are pervasive in the culture and daily actions of the district.		
Operational	The collaboratively- developed vision, mission, and core beliefs that emphasize preparing all students for college and career readiness have been created and communicated to stakeholders and are evident in most actions across the district.		
Emerging	The vision, mission, and core beliefs have been developed with some emphasis on preparing students for college and career readiness, but may have weaknesses due to insufficient collaboration with stakeholders, poor communication, or other limitations.		
Not Evident	The vision, mission, and core beliefs may not exist or may not focus on preparing students for college and career readiness.		
Data Sources			
Comments (optional)			

	vernance (Standard 1): Builds support for district and school goals and initiatives by engagin s, including school board members, to improve learning and teaching	g
Exemplary	Stakeholders, including school board members, take leadership roles in advancing district and school goals and initiatives that improve learning and teaching.	
Operational	The district consistently engages stakeholders, including school board members, in supporting district and school goals and initiatives that improve learning and teaching.	
Emerging	The district provides some opportunities for a range of stakeholders to be engaged in supporting goals and initiatives that will improve learning and teaching.	
Not Evident	Engagement of stakeholders is limited or nonexistent, or the engagement occurs with issues that do not impact learning and teaching.	
Data

2.2 Effective Leadership

	vernance (Standard 2): Uses an established process to align policies, procedures, and practice ad regulations	es
Exemplary	A systematic and collaborative process is used for ongoing development, revision, and alignment of policies, procedures, and practices with laws and regulations.	
Operational	The district regularly uses an established process to align policies, procedures, and practices with laws and regulations.	
Emerging	A process to align policies, procedures, and practices with laws and regulations is not comprehensive or is not used on a regular basis.	
Not Evident	A process is not in use to align policies, procedures, and practices with laws and regulations.	
Data Sources		
Comments (optional)		

	vernance (Standard 4): Grants defined flexibility, based on results, to school leaders to address chool needs to improve learning and teaching	SS
Exemplary	Flexibility granted to school leaders, based upon sustained high performance, is well defined, reviewed periodically, and fully supports the improvement of learning and teaching.	
Operational	The district grants defined flexibility, based on results, to school leaders to address individual school needs to improve learning and teaching.	
Emerging	The district grants limited flexibility, or the flexibility that is given does not allow leaders to improve learning and teaching sufficiently.	
Not Evident	The district grants little or no flexibility or inappropriate flexibility to school leaders to improve learning and teaching.	
Data Sources		
Comments (optional)		

	nning, Organizing, and Monitoring (Standard 1): Uses a collaborative, data-driven planning de district and school levels for improving student learning	g
Exemplary	A collaborative, data-driven planning process results in aligned, comprehensive plans at the district and school levels for improving student learning.	
Operational	At the district and school levels, staffs engage in a collaborative, data-driven planning process to improve student learning.	
Emerging	At the district and school levels, staffs engage in a planning process to improve student learning, but limitations exist with data analysis, collaboration, or other issues.	
Not Evident	A collaborative, data-driven planning process for improving student learning is not in place at the district or school levels.	
Data		
Sources		
Comments (optional)		

	nning, Organizing, and Monitoring (Standard 2): Uses protocols and processes for problem ision-making, and removing barriers	1
Exemplary	The district uses and reviews established protocols and processes for problem solving, decision-making, and removing barriers on a regular basis. Contingency plans are developed for unlikely occurrences.	
Operational	The district uses protocols and processes for problem solving, decision-making, and removing barriers.	
Emerging	District use of protocols and processes for problem solving, decision-making, or removing barriers is limited or inconsistent.	
Not Evident	The district does not use protocols or processes for problem solving, decision- making or removing barriers.	
Data Sources		
Comments (optional)		

	nning, Organizing, and Monitoring (Standard 3): Uses processes to monitor and provide time sport, and feedback to individual schools as they implement improvement plans and initiative	
Exemplary	The district has ongoing, comprehensive processes in place to monitor and provide guidance, support and feedback to individual schools as they implement improvement plans, programs or initiatives. The district builds the capacity of school level staff to monitor the implementation and effectiveness of improvement plans, programs, and initiatives.	
Operational	The district uses processes to monitor and provide timely guidance, support, and feedback to individual schools as they implement improvement plans and initiatives.	
Emerging	The district has some limited processes in place to monitor and provide guidance, support, and feedback to schools as they implement improvement plans and initiatives.	
Not Evident	The district does not use structured processes for monitoring or providing guidance, support, or feedback to individual schools as they implement improvement plans or initiatives.	
Data Sources		
Comments (optional)		

2.2 Effective Leadership

GDPS - Alle	ocation and Management of Resources (Standard 1): Administers a clearly defined, collabor	rative,
data-driven budget process that ensures the equitable, efficient, and transparent distribution of resources to		to
support lear	ning and teaching	
Exemplary	The well-established budget process allows input from departments and programs and is driven by the needs of the schools and district. Various funding sources are efficiently maximized at the district and school levels.	
Operational	The budget process is clearly defined, collaborative, and data-driven, resulting in the equitable, efficient, and transparent distribution of resources to support learning and teaching.	
Emerging	A budget process is in place, but it does not consistently include collaborative, data- driven decisions. In some instances, resource distribution in the district lacks efficiency, equity, or transparency.	
Not Evident	Across the district, individual departments and programs develop budgets in isolation resulting in gaps, duplication, or poor cost effectiveness. District staff serve primarily as controllers of funds and provide little or no assistance to schools on the funding of plans.	
Data Sources		
Comments (optional)		

	ocation and Management of Resources (Standard 2): Allocates and monitors the use of time quipment, and fiscal resources to support learning and teaching	2,
Exemplary	The district allocates and continually monitors the use of time, materials, equipment, and fiscal resources to address both immediate and long-term goals to ensure resources are maximized to support learning and teaching.	
Operational	The district allocates and regularly monitors the effective use of time, materials, equipment, and fiscal resources to ensure that they are utilized to support learning and teaching.	
Emerging	The district inconsistently allocates and monitors the use of time, materials, equipment, and fiscal resources to support learning and teaching.	
Not Evident	The district does little to allocate or monitor effectively the use of time, materials, equipment, or fiscal resources to support learning and teaching.	
Data Sources		
Comments (optional)		

	der, Teacher, and Staff Effectiveness (Standard 5): Organizes and provides personnel, exper to achieve district and individual school goals	tise,
Exemplary	The organization and strategic allocation of personnel, expertise, and services lead to the achievement of district and individual school goals. The district is focused on building the capacity and expertise of school and district staff to solve problems and perform at high levels.	
Operational	The organization and allocation of personnel, expertise, and services are sufficient to achieve district and individual school goals.	
Emerging	The organization or allocation of personnel, expertise, and services is provided intermittently or on a short- term basis as a solution for immediate, pressing needs.	
Not Evident	The organization or allocation of personnel, expertise, and services does not effectively support the needs of the district and schools.

Student survey: Analyze LEA results from the Georgia Student Health Survey 2.0. What are the key findings? What positives are evident in the results? What results are surprising or concerning to the team?	
Parent survey: Analyze LEA results from the Georgia Parent Survey. What are the key findings? What positives are evident in the results? What results are surprising or concerning to the team?	
(Note: The raw survey data can be accessed via the School Climate Surveys within the GaDOE portal by users with the following roles: Administrator, Assessment Director, Curriculum Director, Student Services Director, and Superintendent.)	

Supports and interventions: What supports and interventions, including	
PBIS, are in place to ensure all students	
have access to a supportive learning environment?	
environment:	
What data sources were utilized to	
make the above determinations?	
Out-of-School Time: What processes	
are in place in the district to provide	
students with engaging and enriching learning opportunities during out-of-	
school time (i.e. before school, after	
school, summer)?	
What data sources were utilized to	
make the above determinations?	
2.5.3 SUPPORTIVE LEARNING ENVIRON	MENT TRENDS AND PATTERNS
Summarize the supportive learning	
environment trends and patterns observed by the team while completing	
this section of the report. What are the	
important trends and patterns that will	
support the identification of student, teacher, and leader needs?	
teacher, and leader needs:	

2.6 DEMOGRAPHIC and FINANCIAL

Analyze the LEA's data and answer the guiding questions to determine existing trends and patterns that support the identification of demographic and financial needs. Student subgroups with a count of less than 15 are denoted by "TFS" (too few students).

External factors: What external factors might have affected data and/ or results of data? Examples may include: geographic location, population demographics (employment, education, median income), local/state/national economy, natural disasters, and state and federal policy changes.	
What data sources were utilized to make the above determinations?	
Access to Programs: What processes	
exist to ensure students have access to programs addressing individualized learning needs (including EIP, REP, alternative education, vocational education, and gifted)? What challenges exist in providing students access to such programs when necessary?	
What data sources were utilized to make the above determinations?	

Demographic and Financial Challenges: What demographic and/ or financial challenges could affect improvement efforts within the LEA? (Identifying these challenges may require collection and analysis of additional LEA data.)	
What data sources were utilized to	
make the above determinations?	
2.6.3 DEMOGRAPHIC AND FINANCIAL	TRENDS AND PATTERNS
Summarize the demographic and financial trends and patterns observed by the team while completing this section of the report. What are the important trends and patterns that will support the identification of student, teacher, and leader needs?	

2.7 STUDENT ACHIEVEMENT

Analyze the LEA's data and answer the guiding questions to determine existing trends and patterns that support the identification of student achievement needs. The LEA is responsible for populating all blank data cells. Student subgroups with a count of less than 15 are denoted by "Too Few".

3.2 PROGRAM STRENGTHS and CHALLENGES

Using the summaries in 3.1 and other local data, describe the strengths and challenges or answer the guiding questions for each program. Include strengths and challenges related to: a) general program implementation, and b) students and adults involved in or affected by the program. Focus on strengths and challenges that will assist in the identification of needs during 3.3. Watch the <u>Identifying Need webinar</u> for additional information and guidance.

3.2.11 ADDITIONAL QUESTIONS FOR CHARTER SYSTEMS

What are the main successes of your implementation of Local School Governance?	
What barriers had to be overcome to implement Local School Governance?	
What remains to be done to fully implement Local School Governance with fidelity?	
Essential Features and	
Innovations: Describe the	
LEA's progress on the essential features and innovations to	
improve academic outcomes in	
the charter system's contract.	
Questions to consider include:	
What is the status of the	
implementation of each	
essential or innovative feature included in the	
contract?	
For those essential or	
innovative features that are	
not on schedule, what are	
next steps?	
Are there any essential or innovative features that	
should be deleted or added	
to the LEA's new charter	
system contract?	

3.3 IDENTIFICATION and PRIORITIZATION of OVERARCHING NEEDS

Use the results of 3.1 and 3.2 to identify the overarching needs of the LEA. Determine the priority order of the identified needs based on data, team member and stakeholder knowledge, and answers to questions in the table below. Be sure to address the major program challenges identified in 3.2. Watch the <u>Identifying Need webinar</u> for additional information and guidance.

Overarching Need	How severe is the need?	Is the need trending better or worse over time?	Can Root Causes Be Identified?	Additional Considerations	Priority Order

3.4 ROOT CAUSE ANALYSIS

Select the top 2-4 overarching needs from 3.3. Conduct a separate root cause analysis (RCA) for each need. Any RCA tools and resources can be used, but suggestions are available as part of the <u>Identifying Need webinar</u>. After describing the RCA process, complete a table for each selected overarching need. Use the letter codes below to identify which programs relate to each root cause (ex: "ABCF").
